

VFW National Commander Denounces Political Violence

The following statement is in response to the recent rally shooting

Jul 14, 2024

WASHINGTON — “The democracy that we hold dear, the very democracy generations of American veterans have fought for and died to protect around the world, holds no place for political violence - we denounce it unequivocally.

Americans should expect an election process free from violence against candidates and voters. Anything less undermines the most paramount rights that our constitution ensures.

For more than 125 years, members of the VFW have seen wars spawned by political violence firsthand in foreign lands. It’s unconscionable that this attack on democracy has happened in our own country.

Our thoughts and prayers go out to the innocent victims who were simply exercising their rights as Americans.

This incident should serve as a grave reminder that America is a constitutional republic where voters must determine our nation’s governance free from fear and violence.”
